# Management System with ISO 14001 is about ...

- Environmental management with ISO 14001 expands customer requirements and risks and opportunities to consider environmental aspects and impacts, compliance obligations and environmental objectives.
- Continual improvement becomes driven not only by customer expectations, but also by business priorities and environmental programs generated internally by the organization.

# Advantages of Combining ISO 9001, 14001 & 45001

Fundamentally, as an Integrated System:

- A commitment to continual improvement will meet or exceed customer expectations in the provision of goods and services.
- A commitment to protect the environment will prevent pollution and will continually improve the air we breathe, the water we drink, and the land we inhabit.
- A commitment to protect the workplace will prevent work-related injury & ill-health and will continually improve our working conditions.
